A Proofreading history
fraction attached to soma
synapses (all targets)
median axon cable
axons complete
partial plateau
B RF rule
slope shift vs. complete axons
(< 0 = rule looks stronger)
C Orientation rule
D RF rule beyond shuffled wiring
real − shuffled slope
(bars: shuffle 95% range)
distance-matched shuffle
cell-type shuffle
ns
E Orientation rule beyond shuffled wiring
complete v1822
Apr 2023
Nov 2025
Feb 2026
column Rc = 100 µm
radial f = 0.3
V1→V1, synapse count (Nsyn) model, slope per 10° of RF distance / orientation difference
